Bishops, what can you do?

The bishops have said that the situation with COVID is severe enough that we may take vaccines made using MURDERED babies. They also say that "In this way, being vaccinated safely

against COVID-19 should be considered an act of love of neighbor and part of our moral responsibility for the common good.”

I need more than this bulletin to tell you just how wrong they (those who agree) are.

Ask yourself: “How would I would feel if I knew that a baby had to be murdered so that I could live?”

Reflect for a moment - were we not told that we were doing all this and that all this would be worth it, if we save but one life?

They assume that the vaccine is safe. I hear that some have already died from it. It may work today for the virus, but what harm will there be in 5, 10, 15 years down the road? We do not know. Are the bishops clairvoyant now?

Are we to trust Bill Gates who will get richer from all this and who is known for having used vaccines to sterilized woman without their knowledge or permission?

Are we to trust pharmaceutical companies in general?

Are we going to trust the government who wants to force this on everyone as “the price you will have to pay for participation in society?” Sounds like “666” to me.

How is it that the bishops think that they can use their miter as a way to force their personal/political opinion on us? What metrics are they using to determine the “crisis” is bad enough that we may do

unethical, evil and sinful behavior (taking the vaccine). What are the thresholds they are using to say that they have been crossed so we can use the vaccines? Who set the thresholds? With a 99.5% survival rate; not sure that is a threshold I would want to argue before God on judgement day as to why I took an evil drug. I am not sure that 25% of the population dying is enough for me. So I am not sure where they got their threshold, line in the sand number.

As to the “common good...” Is it for the common good for us to all commit mass mortal sin together? At least we will all have each other’s company in hell. Is it for the common good that we all share in the mass hysteria based on lies, deceit and manipulation? Is it for the common good that we deprive people of their human freedoms and rights? Is it a good to participate in the taking away the common freedoms we enjoy in this country?

How can the bishops say that we have a “moral responsibility” to do something evil to accomplish some perceived yet unproven good result. Church teaches that ends do not justify the means. The doctrine of double effect does not work here because they directly intend the evil to be done. And the good they desire cannot be proven that it will come about. And even if it did, all the other harm that comes with it are evil... There is no proportionality to it.

I can keep going here...

(Bad) bishops, we do not care about, nor do we desire or appreciate, your modernist, humanistic, socialist, Democratic, Masonic, homosexual, one world government, one world economy, one world currency, one world religion, social justice, demonic agenda and aspirations.
